

Webinar

BIG DATA

ENRICH in the USA is hosting a webinar focused on the Big Data ecosystem of the USA.

Four speakers from the National Science Foundation Regional Big Data Innovation Hubs will provide insights on the Big Data ecosystems in the Northeast, West and South regions of the USA.

Topics include:

- Relevant programs, projects and entities in each USA region
- Characteristics of the Big Data ecosystems in the USA regions
- Main regional challenges
- Potential opportunities for cooperation in the USA
